

Darby Custom Building, LLC

Rugged, efficient, engineered

Build . Remodel . Design

Darby Custom Building, LLC provides transportable structures from its production facility in Choteau, MT. With 30+ years of field experience, plus partner facilities in Livingston, MT and Rolette, ND, DCB/TRC delivers rugged and efficient structures tailored to your specifications and site, year round.

CORE COMPETENCIES

- Project Design + Planning
- Wood/Steel Construction
- Controlled Environment Facility
- Structural Design
- Production-Driven Assembly
- Building Transport & Placement
- Energy Efficiency
- Interior/Exterior Finish

STRUCTURES WE BUILD

Cabins · Bunkhouses · Field Units · Studios · Utility

DIFFERENTIATORS

- **Common-sense approach.** Our design and planning process delivers quality structures tailored to your needs, on time.
- **Indoor construction facility.** Consistent temperature, humidity, and light for high-quality structures.
- **Innovation and adaptability.** We constantly improve our process, methods, and materials.
- **Delivery.** We transport to your site; your structure arrives ready to connect to utilities, permanent or temporary.
- **Relocatable field units.** Engineered to redeploy. When your project or site requirements change, we handle transport and re-siting to keep pace with your operations.
